Create a complete Game Design Document for my emoji-based turn-based tactical RPG. Document the full game concept, visual style, UI, main menu, battle system, game modes, characters, enemies, and animations — all in one cohesive reference document.

🎮 PART 1 — GAME CONCEPT & VISUAL STYLE

📌 Overview

- Genre: Turn-based tactical RPG with strategic team building & elemental combat
- Visual Style: Clean, modern, minimalist — characters represented by single emojis with modern real-world names; smooth 2D card-style animations; soft glow effects; readable typography; no clutter
- Core Philosophy: Easy to learn, deep to master — every effect has a clear visual cue; players always understand what's happening and why

🎨 Main Menu — How It Looks

Screen Layout:

- Top Left: Player avatar + name + level; currency display (Crystals, Coins, Energy)
- Top Right: Settings ⚙️ / Mail 📧 / Achievements 🏆
- Center — 4 Large Buttons:
- 📖 Story Campaign → Main quest line, chapters, levels
- ⚔️ Battle Modes → Endgame challenges (MoC-style, Pure Fiction-style, Anomaly Arbitration-style)
- 👥 Characters → View roster, upgrade, level up, build teams
- 🛒 Shop → Daily deals, bundles, currency
- Bottom: Daily Missions tracker / Events banner / Friends
- Transitions: Smooth fade between screens; subtle background parallax; soft ambient music

⚔️ Battle UI — Complete Layout

plaintext

```
 [ TURN ORDER BAR — Icons flow horizontally at top.
   Your units = Bright & Highlighted. Enemies = Dimmed. Next turn = Pulse glow ]

┌──────────────────────────────────────────────────────────────────────────┐
│  ENEMY SIDE (Top)                                                        │
│  [Enemy Portrait] ❤️HP ⛓️Toughness 🛡️Shield                              │
│  ↳ Buffs/Debuff Icons ABOVE head — max 4 visible                         │
│  ↓ Elemental Shield = glowing outline around enemy                       │
│                                                                          │
```

```
│  FIELD EFFECT — Environment tint + particles          │
│  [Battle Arena — cards move/animations play here]     │
│                                                       │
│  ALLY SIDE (Bottom)                                   │
│  [Ally Portrait] ❤️HP 💫Energy Bar                    │
│  ↳ Buffs/Debuff Icons ABOVE head                      │
│  ↓ Shield = glowing outline around ally card          │
└──────────────────────────────────────────────────────┘
```

[BOTTOM ACTION PANEL]
↳ Basic ATK / Skill / Ultimate (grayed out when unavailable)
↳ Targeting mode: Enemy = red pulse highlight / Ally = green glow
↳ Auto-battle toggle ⚡ / Speed toggle 1x▸▸2x

Battle UI Visual Rules:

- ❤️ HP Bar: Green → Yellow (<50%) → Red (<25%) — smooth transitions
- 💫 Energy Bar: Fills gradually; glows bright gold when full
- ⛓️ Toughness Bar: Above HP — gray when intact, cracks → shatters when broken
- 🛡️ Shield: Glowing outline + secondary bar above HP; silver numbers when shield absorbs damage
- Buff/Debuff Icons: Above unit head — solid = 2+ turns left | faint pulsing glow = 1 turn left | fades out = expired
- Damage Numbers: Element-colored, float upward, fade out — Crit = larger + bold, Heal = green ↑, DoT = smaller faded text

🎯 PART 2 — CORE BATTLE MECHANICS

📌 Basics

- 9 Paths: ⚔️Destruction · 🏹Hunt · 🧠Erudition · 🛡️Preservation · 💚Abundance · 🤝Harmony · 💀Nihility · 🪞Remembrance · 🎉Elation
- 8 Elements: 🔥Fire · ❄️Ice · ⚡Lightning · 🌪️Wind · 🌍Earth · 💧Water · ✨Light · 🕷️Shadow
- Turn Flow: Start of Turn → Buffs/Debuffs tick & count down → Field effects trigger → Main Action → End of Turn
- Energy: Basic ATK +20 · Skill +30 · Taking Damage +10–15 · Ult Costs = 90–140 Energy

🛡️ Enemy Shields & Toughness Break System

Elemental Shields:

- Visual = glowing element-colored outline around enemy + secondary bar above HP
- Shield takes reduced damage from non-counter elements; 2× damage from counter element
- Damage to shield = silver numbers + 🛡️ icon
- 💥 BREAK MOMENT: Outline shatters into fragments → element-matching flash bursts → "BROKEN" bold text pops up → enemy flinches/staggers briefly
- Broken State: Enemy takes +30–50% DMG for 2 turns; full debuff susceptibility; elemental weakness exposed
- Recovery: Faint dim outline reappears 1 turn before fully restored → solid glow returns + "RESTORED" small text

Toughness Bar (Stagger):

- Bar above HP — solid when full, flashes when low
- 💥 BREAK: Bar shatters → disappears → enemy staggers/hunches over → "BREAK" pops up in bold orange
- Effect: Enemy action delayed 30–50% in turn order; takes +40% DMG for 2 turns; debuffs last +1 extra turn
- Recovers gradually over turns

🌍 Field System

- 1 field active at a time — deploying new replaces old
- Visual = environment tint + ambient particles + floor pattern
- Expiring soon = glow dims, particles slow → fades out completely
- Field-specific buffs apply to matching elements

✨ Animations Reference

- Melee: Character/card slides forward → strikes → slides back; impact flash + slight enemy knockback
- Ranged: Projectile/beam travels from caster → impacts target; visible in flight
- AoE: Effect expands outward from caster; wave/burst across multiple targets
- Buff/Heal: Soft glow descends on target; thin connecting line from caster fades; particles rise
- Shield: Glowing outline forms around target; shatters into fragments when broken

🏆 PART 3 — GAME MODES — Inspired by MoC, Pure Fiction, Anomaly Arbitration

🔹 Mode 1: ⏳ Memory of Chaos — Forgotten Hall / Limited Cycle Clear

Mechanics inspired by Honkai: Star Rail's Memory of Chaos

Concept: Complete stages within a strict turn limit — efficiency is key

- Structure: 12 stages — each split into 2 separate halves → requires 2 different teams
- Objective: Defeat ALL enemies before the Cycle/Turn Limit runs out
- Scoring / Stars: 0–3 stars per stage based on turns used (faster = more stars)
- Rewards: One-time clear rewards + resetting rewards every cycle (~6 weeks)
- Difficulty Scaling: Each stage harder than previous; final stages = endgame challenge
- Visuals: Dim, ruined-hall aesthetic; glowing memory fragments floating; countdown timer prominent at top

🔹 Mode 2: 🔥 Pure Onslaught — Endless Spawn & Scoring

Mechanics inspired by Honkai: Star Rail's Pure Fiction

Concept: Defeat as many enemies as possible within limited cycles — enemies keep respawning!

- Structure: 4 stages — 2 teams (or 3 in Starward variant)
- Objective: Accumulate Score Points by defeating enemies → points damage a Boss Gauge → fill gauge to defeat boss & advance
- Unique Rule: Enemies respawn shortly after being defeated — kill quickly & continuously
- Buff System: Choose 1 of 3 random Phase Buffs before starting — shapes your strategy
- Surging Power: Kill enough enemies → team enters powered-up state for massive damage
- Cycle Limit: 4 Cycles max per stage — finish strong before time runs out
- Rewards: Points tiers → stars → increasing rewards; full clear = maximum payout
- Visuals: Chaotic, shifting battlefield; enemies spawn with distortion effect; score counter climbs prominently on right

🔹 Mode 3: ♟️ Anomaly Arbitration — Multi-Team Gauntlet

Mechanics inspired by Honkai: Star Rail's Anomaly Arbitration

Concept: 3 trial runs → then a final boss — each fight needs a different team

- Structure:
- ⚔️ Knight Stages: 3 consecutive battles → 1 unique team per battle — no repeats!
- 👑 King Stage: Final encounter against a powerful boss — uses your strongest remaining team
- Objective: Clear all 3 Knights → then defeat the King boss
- Unique Rule: Team lock — characters used in earlier battles cannot be reused in later ones
- Interference Mechanic: Earn Interference Keys from clearing — use them to disable 1 boss modifier before fighting, making it easier
- Difficulty Levels: Multiple tiers — higher difficulty = better rewards & exclusive avatar frames
- Rewards: 1★=Keys+Materials · 2★=Resources · 3★=Limited Avatar Frame

- Visuals: Checkerboard battlefield aesthetic; chess-piece icons for enemies; boss arena grander & darker; warning effects for boss special moves

🔹 Other Permanent Modes

- 📖 Story Campaign: Linear chapters → unlock characters & modes → increasing difficulty
- 🏔️ Echoes of War: Weekly boss fights — limited rewards per clear
- 📅 Events: Limited-time modes with unique rules & characters

🦸 PART 4 — PLAYABLE CHARACTERS

(Full lore, skills, effects, energy costs, targeting, animations, passives, techniques — organized by Path & Element. Each entry includes exact numbers, durations, expiration visuals, and element color coding.)

(Destruction, Hunt, Erudition, Preservation, Abundance, Harmony, Nihility, Remembrance, Elation — all characters complete with real-world names, emojis as icons only, full kits, and full animation descriptions for every action.)

👾 PART 5 — ENEMIES & BOSSES

(Common Enemies → Elite Enemies → Mini-Bosses → Full Bosses — each with HP, Toughness, Element, Skills, AI behavior, Phase transitions, Shield/Toughness visuals, defeat animations, and reward drops)

✅ IMPLEMENTATION CHECKLIST

- [ ] Main Menu screen flow & navigation
- [ ] Battle UI layout — all bars, icons, numbers, positioning
- [ ] Buff/Debuff expiration system — solid → pulse → fade
- [ ] Elemental Shield — active → breaking → broken → recovering visuals & effects
- [ ] Toughness Bar — intact → damaged → broken → stagger effect
- [ ] Field effects — activation → active → expiring → fade
- [ ] 3 Endgame Modes fully functional — MoC / Pure Onslaught / Anomaly Arbitration
- [ ] Character kits — all paths, skills, ultimates, passives, techniques
- [ ] Enemy & Boss AI, phases, shields, break states
- [ ] Damage number colors, crit/heal/DOT variations
- [ ] All attack animations — melee, ranged, AoE

Write this up as a clean, professional Game Design Document — organized sections, clear descriptions, ready for developers, artists, and playtesters to reference.

Create a complete visual battle UI & indicator system for my emoji-based turn-based combat game, inspired by Honkai: Star Rail. The game uses single emojis to represent all characters, enemies, and effects. Design the system to be clean, intuitive, and visually clear without being cluttered.

🎯 Core Goals

- Players should instantly understand what's happening, when effects expire, and which fields are active
- Keep visuals subtle — readable over long battles without eye strain
- Every buff, debuff, field, and special mechanic has a consistent visual language

✨ Key Visual Rules to Include

⏳ Buff & Debuff Expiration System

- 2+ turns remaining: Solid icon + small number showing turns left — no glow
- 1 turn remaining (expiring soon): Faint, soft pulsing glow around the icon
- 🟢 Green glow = Buff expiring
- 🔴 Red glow = Debuff expiring
- Ending THIS turn: Icon flashes slowly once at the start of the turn, then fades away completely

🌍 Field / Zone Visuals

Fields change the battlefield environment itself — glowing tint, ambient particles, floor patterns. They do NOT obscure characters or UI. Include:

- Each element's unique field look (color tint, particle type, ground effect)
- Active state → full glow + steady particles
- Expiring soon → dimmer glow, slower particles, shrinking patterns
- Optional small corner indicator with field name + turn count

✨ Buff Indicators

- Icon displayed above character's head
- Subtle visual effect on the character itself (glow, outline, particles)
- 1-turn warning = pulsing glow on icon + fading effect on character

☠️ Debuff Indicators

- Icon displayed above enemy's head
- Subtle tint/pattern around the enemy — never distracting or obstructive

- 1-turn warning = pulsing glow on icon + fading effect on enemy

🪞 Special Path Mechanics

- Remembrance: Translucent duplicate/echo behind the character; fades gradually when expiring
- Elation: Brightness increases with energy; sparkling effects on crit/burst; cheerful subtle particles
- Harmony: Faint glowing lines connect caster to buff targets when activated, then fade
- Nihility: Spreading debuffs show a tiny arrow indicator; pulses faster when about to spread

📐 Layout & Placement

- Buff/debuff icons: Above unit's head, clean row, max 4 visible at once
- Field effects: Background/environment layer — behind all characters & UI
- Numbers: Small, clean, high-contrast — easy to read but unobtrusive

📝 Structure Your Answer

Organize it clearly with sections for:

1. Buff & Debuff — full visual chart (icon, name, character effect, expiration look)
2. Element Fields — full chart (element, active look, expiring look)
3. Special Path Visuals — Remembrance, Elation, Harmony, Nihility, etc.
4. Quick Reference — 1-page summary of all visual cues

Create a complete, balanced turn-based combat mechanics system for my emoji-based game, inspired by Honkai: Star Rail structure but simplified for emoji-style play. Use single emojis for all characters, enemies, and UI elements. Make it clear, teachable, and fun to theorycraft team builds around.

🎮 Core Foundation

- 9 Paths (Roles): ⚔️Destruction · 🏹Hunt · 🧠Erudition · 🛡️Preservation · 💚Abundance · 🤝Harmony · 💀Nihility · 🪞Remembrance · 🎉Elation
- 8 Elements: 🔥Fire · ❄️Ice · ⚡Lightning · 🌪️Wind · 🌍Earth · 💧Water · ✨Light · 🕷️Shadow
- Combat Flow: Turn order displayed as an action bar at the top of the screen
- Resources: ❤️HP · 💫Energy (gained by attacking/taking damage; used for Ultimates)

📐 Core Turn Structure

Each turn = 3 steps:

1. ⏳ Start of Turn → Fields tick → Buffs/Debuffs count down → expiring effects show warning
2. ⚔️ Main Action → Basic ATK OR Skill OR Ultimate (when Energy full)
3. ✅ End of Turn → Apply DoT/Heal → update Energy → shift turn order

Include how these work: Basic ATK · Skill · Ultimate · Passive Talent · Technique (pre-battle skill)

🧭 Path-Specific Mechanics — Define each uniquely

For all 9 paths, explain:

- Core Playstyle — What do they do in battle?
- Unique Mechanic — What makes them feel different to play?
- Resource/Flow Details — How they generate Energy, when they act, any special rules

Special focus on the unique paths:

- 🪞 Remembrance: How Echoes work — how they're summoned, what they do, turn duration, how they copy/trigger actions, how they expire
- 🎉 Elation: Burst/Crit/Luck mechanics — Energy synergy, proc chances, critical chains, "lucky" extra effects, energy generation bonuses

🌍 Field System Rules

- Who can deploy fields, how long they last, max 1 field per element at a time
- How fields interact with elements/skills (e.g. Fire Field + Fire Skill = enhanced effect)

- How to remove/dispel fields, how they expire naturally

⏳ Buff & Debuff Stacking & Expiration

- Max stacks per effect, what happens when refreshed
- Expiration countdown system: 2+ turns = solid icon · 1 turn = faint pulse · End of turn = fade out
- Cleansing rules: what can be removed vs. permanent vs. unremovable effects

🎯 Damage & Scaling

- Elemental weakness/resistance system
- Crit chance / Crit damage / Break efficiency
- How shields, invincibility, damage reduction interact with incoming damage

🧩 Team Building & Synergy

- Recommended core composition: Tank + Healer + Damage + Support
- How to combine paths for strong combos (e.g. 🪞Remembrance echoes copy 🤝Harmony buffs; 🎉Elation crits empower 💀Nihility DoTs)
- Field conflict/overlap rules — when one field replaces another

⚔️ Enemy & Boss Mechanics

- Enemy turn logic — when they save skills vs. use basics
- Toughness/Break system — breaking delays enemy turn + increases damage taken
- Boss phases — when they trigger, what changes, rewards for winning

📝 Structure Your Answer

Organize into clear sections:

1. Battle Basics & Turn Flow
2. 9 Paths — Roles, Playstyles & Unique Mechanics
3. Elements, Fields & Interactions
4. Buffs, Debuffs & Expiration Rules
5. Damage, Energy & Scaling
6. Team Building Guide
7. Enemy, Elite & Boss Rules

Keep it practical — something players could read and understand in one sitting. Use emojis consistently. Avoid overly complex math but be specific enough to implement.

Create a detailed battle animation & visual feedback system for my emoji-based turn-based combat game. Keep descriptions clear, practical, and consistent with the single-emoji art style. Include movement, effects, timing, colors, and what the player sees at every step.

🎯 Core Animation Principles

- Snappy but satisfying — no long pauses; animations feel responsive
- Readable first — player always understands who did what, to whom, and how much
- Element-consistent — colors, particles, and effects always match the element
- Smooth transitions — no jarring cuts; everything flows naturally

⚔️ Attack Animations — Melee vs. Ranged

🔹 Melee Attacks

- Card/Character Movement: Your character/card slides forward smoothly toward the target enemy — not too fast, not too far — then strikes, then slides back to their original position
- Impact: Brief flash at the point of contact + small knockback shake on enemy
- Example: 🦊 dashes forward → connects → returns

🔹 Ranged / Projectile Attacks

- Skill Shot Style: A clear projectile/beam/particle effect travels from the caster toward the target — player sees it in flight
- Trajectory: Straight line or gentle arc; slightly slow enough to follow but instant-feeling
- Impact: Effect lands on enemy → brief flash + element particles burst outward
- Example: ⚡ sends a lightning bolt → travels screen → strikes target

🔹 Area of Effect (AoE) Attacks

- Visual originates from the caster → expands outward OR targets appear one after another
- Distinct visual — a wave, burst, or shower rather than single projectile

🎯 Targeting System Visuals

- Selecting an Enemy: Enemy outline brightens; subtle pulse effect; slight zoom-in highlight
- Selecting an Ally: Ally glows softly; friendly icon appears above them
- Invalid Target: Faint red cross / "X" icon — can't select that target
- Range Indicator: Faint circle/line showing skill range when selecting
- Confirm Attack: Target flashes once → animation plays immediately

💥 Damage Numbers — Color Coding

Numbers pop up above the target, float upward, then fade out:

- 🔥 Fire — Bright Orange / Red
- ❄️ Ice — Pale Cyan / Light Blue
- ⚡ Lightning — Electric Yellow / Violet
- 🌪️ Wind — Soft Green / Teal
- 🌍 Earth — Brown / Sandy Gold
- 💧 Water — Deep Blue
- ✨ Light — White / Gold Glow
- 🕷️ Shadow — Deep Purple / Smoky Gray
- 💚 Heal — Bright Green + ↑ arrow
- 🛡️ Shield — Light Blue/Silver + small shield icon
- ❤️ Critical Hit — Same element color but LARGER + BOLD + sparkle burst
- 🩸 DoT Damage — Smaller, slightly faded number

🛡️ Shields — Visual Representation

- Active Shield: Semi-transparent glowing outline around the character — matches element color
- Shield Value: Small shield icon 🛡️ in corner of HP bar showing exact amount
- Taking Damage While Shielded: Shield flashes briefly; particles "absorb" the hit before it reaches HP
- Shield Breaking: Outline shatters into fragments that drift away → fades completely
- Stacking Shields: Outline thickens; glow becomes brighter

✨ Buff & Heal — Friendly Target Animations

- Buff Applied: Soft glow surrounds the ally; icon appears above head; thin line from caster fades away
- Heal: Green particles float upward from the ally; HP bar rises smoothly; ❤️+number pops up
- Shield Given: Shield outline forms around the ally — quick pulse → steady glow

⏳ Extra Details — Quality of Life Visuals

Energy & Ult Readiness

- 💫 Energy bar fills gradually → when full, portrait glows brightly + pulses gently — player instantly sees "Ult ready!"

Field Activation

- Caster raises/uses skill → environment tint sweeps across screen from caster outward → particles settle gently → field is active; corner icon appears with turn count

Enemy Break / Stagger

- Toughness bar breaks → enemy staggers, animation pauses briefly, glow flickers — clear signal: "This enemy is vulnerable!"

Death / Defeat

- HP hits zero → character/enemy fades out or shrinks gently — no sudden disappearances; respectful transition

Turn Order Bar

- Icons flow horizontally at top of screen — your turn = highlighted; enemy turns = dimmer but visible

Miss / Evasion

- "MISS" in light gray — slides sideways rather than upward; subtle puff of air particles

Silence / Stun / Disable

- Small icon spins or pulses above head; character portrait dims slightly — clear they can't act this turn

Low HP Warning

- HP bar turns red when below 25%; faint heartbeat pulse on portrait — subtle urgency, not panic-inducing

Skill Ready Cooldown

- Skill button grays out; small number shows cooldown turns remaining; brightens when ready

Interaction Cues

- Hovering over a skill → preview range, effect description, and targeting style
- Hovering over buff/debuff → tooltip shows exact effect and turns remaining

📝 Structure Your Answer

Organize clearly:

1. Attack Animations — Melee, Ranged, AoE
2. Targeting Feedback — Enemy, Ally, Invalid cues
3. Damage & Heal Numbers — Full element color chart

4. Shield Visuals — Apply, Active, Damage, Break
5. Buff, Heal & Support Animations
6. Quality-of-Life Cues — Energy, Fields, Breaks, Cooldowns, Low HP, etc.

Keep descriptions vivid but implementable — something a developer or animator could follow directly. Use emojis where they help clarify.

Create a complete character & enemy design document for my emoji-based turn-based combat game. Use modern real-world names — emojis are only their in-game visual icon. Every entry includes full lore, role, element, full skill kit, effects, energy costs, targeting rules, and exact animation descriptions. Structure it so this can be used directly for coding/implementation.

📌 Core Reference

- 9 Paths: ⚔️Destruction · 🏹Hunt · 🧠Erudition · 🛡️Preservation · 💚Abundance · 🤝Harmony · 💀Nihility · 🪞Remembrance · 🎉Elation
- 8 Elements: 🔥Fire · ❄️Ice · ⚡Lightning · 🌪️Wind · 🌍Earth · 💧Water · ✨Light · 🕷️Shadow
- Turn Flow: Start of Turn → Main Action → End of Turn
- Resources: ❤️HP · 💫Energy (Basic ATK +20, Skill +30, taking dmg +10–15; Ultimates cost 90–140 Energy)
- Damage Numbers: Element-colored; Crit = larger + bold; Heal = green ↑; Shield = silver 🛡️ icon; DoT = smaller faded text
- Animations Reference: Melee = card slides forward → strikes → returns. Ranged = projectile/beam travels from caster → impacts target. AoE = expands from caster outward. Buff/Heal = glow + particles on target; thin connecting line fades. Shield = glowing outline forms around target; shatters when broken.

🦸 PART 1 — PLAYABLE CHARACTERS

Format per character:

- Emoji Icon / Modern Name / Path · Element
- Short Lore & Playstyle Summary — who they are, how they feel to play
- Basic ATK: Name → Target Type → Effect → Animation
- Skill: Name → Target Type → Energy Cost → Effect → Duration/Expiry → Animation → Expiration Visual
- Ultimate: Name → Target Type → Energy Cost → Effect → Animation
- Passive Talent: Trigger → Effect → Visual Cue
- Technique (Pre-Battle): Effect → Animation

Include ALL characters below:

⚔️ DESTRUCTION — Frontline Damage Dealers

🦊 Ember · ⚔️Destruction · 🔥Fire

- Spunky, bold fighter who burns through defenses. High damage, durable enough to take hits.
- Basic ATK: Flame Strike → Single Enemy → Fire DMG → Ember dashes forward, strikes with fiery paw, slides back

- Skill: Wildfire Leap → Single+Adjacent Enemies → Fire DMG + Self ATK +15% (2 turns) → Ember leaps in flame arc, lands on target → small fire explosion; self glows orange (fades when expiring soon)
- Ultimate: Inferno Roar → 💫120 Energy → All Enemies → Heavy Fire DMG + 🔥Burn (2 turns) → Ember glows bright orange, rears back → fire wave blasts outward from her position → embers drift upward
- Passive: Blazing Soul — HP <50% → Fire DMG +25% → faint fire aura flickers around her
- Technique: Scorch → First battle action deals extra Fire DMG

🗿 Stone · ⚔️Destruction · 🌍Earth

- Quiet, stoic guardian. Slow but hits incredibly hard and can withstand punishment.
- Basic ATK: Boulder Smash → Single Enemy → Earth DMG, ignores 15% DEF → Stone steps forward, swings massive fist → impact shakes screen → returns slowly
- Skill: Groundquake → All Enemies → Earth DMG + Self DEF +20% (2 turns) → Stone slams ground → cracks spread outward → earth particles rise; faint stone barrier around him
- Ultimate: Tectonic Crush → 💫130 Energy → Single Enemy → Massive Earth DMG + Delay Target's Action → Stone raises both hands → boulder slams down on target → dust cloud erupts
- Passive: Unmoving — Cannot be knocked back; DEF boosts also increase ATK by ½ their value
- Technique: Stance → Start battle with DEF +10% for 2 turns

🐺 Riven · ⚔️Destruction · 🕷️Shadow

- Fierce cursed warrior. Trades health for power — high risk, high reward playstyle.
- Basic ATK: Shadow Claw → Single Enemy → Shadow DMG → Riven lunges forward in dark blur, slashes twice, retreats
- Skill: Blood Sacrifice → Single Enemy → Costs 15% HP → Heavy Shadow DMG → Dark aura flares around her → black slash hits target; HP bar dips visibly
- Ultimate: Feral Ruin → 💫120 Energy → All Enemies → Shadow DMG + Self loses 10% HP → Riven howls — shadow wave ripples outward → enemies take damage; dark mist settles
- Passive: Thirst — Lower HP = Higher DMG (max +40% at <30% HP) → darker aura as HP drops
- Technique: Dark Pact → Start battle with Shadow DMG +10% for 3 turns

🏹 HUNT — Single-Target Assassins

⚡ Kai · 🏹Hunt · ⚡Lightning

- Quick, precise scout. Strikes first, moves fast, finishes targets instantly.
- Basic ATK: Spark Shot → Single Enemy → Lightning DMG +10% Crit Rate → Kai throws a bolt of lightning — projectile flies fast → impacts with bright flash

- Skill: Chain Bolt → Single → Lightning DMG, jumps to 2 nearby enemies (each -25% DMG) → lightning hits target → arcs to next two in quick succession
- Ultimate: Thunderstrike → 💫100 Energy → Single Enemy → Devastating Lightning DMG, +30% Crit DMG → Lightning spear forms → hurls at target → massive electric explosion
- Passive: Velocity — SPD +15%; when an enemy is defeated, Kai moves forward 25% in turn order → faint speed trail visual when this triggers
- Technique: Shock → First attack in battle has +20% Crit Chance

🌊 Marina · 🏹Hunt · 💧Water

- Agile ocean ranger. Strikes then repositions — avoids damage while wearing foes down.
- Basic ATK: Water Pierce → Single Enemy → Water DMG → Sharp water jet shoots forward → splashes on impact
- Skill: Tide Barrage → Single Enemy → 2 consecutive Water DMG hits → water arrow fires, then second immediately after → two splashes
- Ultimate: Abyss Harpoon → 💫105 Energy → Single Enemy → Heavy Water DMG, ignores 30% DEF → glowing water harpoon launches → pierces target → swirl of water
- Passive: Flow — After using Skill, SPD +12% for 2 turns → water trail follows her movement
- Technique: Current → Start battle with SPD +10% for 1 turn

🦅 Solana · 🏹Hunt · ✨Light

- Solar archer. Her strikes are blindingly accurate — critical hits are guaranteed opportunities.
- Basic ATK: Sun Dart → Single Enemy → Light DMG → Golden arrow flies straight — bright beam, small sunburst on impact
- Skill: Radiant Barrage → Single Enemy → 2 Light DMG hits, each can Crit independently → two quick beams in succession
- Ultimate: Dawn Judgment → 💫95 Energy → Single Enemy → Light DMG, Guaranteed Crit → Sunlight converges → massive beam strikes target from above → radiant explosion
- Passive: Blinding Light — Crit DMG +30% against debuffed enemies → target glows faintly when bonus active
- Technique: Beacon → First turn, Crit Rate +15%

🧠 ERUDITION — AoE Magic Damage

🌪️ Zephyr · 🧠Erudition · 🌪️Wind

- Calm wind sage. Controls the battlefield with sweeping area attacks.
- Basic ATK: Gale Slash → Single Enemy → Wind DMG → Sharp blade of air cuts through target
- Skill: Swirling Tempest → All Enemies → Wind DMG → Whirlwind expands outward from Zephyr — leaves/petals caught in it

- Ultimate: Cyclone Surge → 💫130 Energy → All Enemies → Heavy Wind DMG + Enemy SPD -15% (2 turns) → Large cyclone forms in center → gusts push outward; enemies lean back from wind force
- Passive: Eye of the Storm — Skill hits have 20% chance to refresh Skill cooldown → wind particles swirl faster when proccing
- Technique: Breeze → All allies SPD +5% for first turn

👑 Ignis · 🧠Erudition · 🔥Fire

- Royal pyromancer. Commands overwhelming firepower that engulfs entire groups.
- Basic ATK: Ember → Single Enemy → Fire DMG → Small fireball lobs → bursts on impact
- Skill: Flame Wave → All Enemies → Fire DMG, 30% chance 🔥Burn (2 turns) → Wall of fire sweeps across enemy row
- Ultimate: Solar Inferno → 💫140 Energy → All Enemies → Massive Fire DMG + Strong 🔥Burn (3 turns) → Sun-like orb appears → erupts — fire rains down on all foes
- Passive: Burning Power — 🔥Burn DMG +50% → flames on burning enemies burn brighter
- Technique: Kindle → Start battle, Skill has +1 charge

📖 Elara · 🧠Erudition · ❄️Ice

- Frost scholar who freezes time and space. Patterns of ice magic cover the battlefield.
- Basic ATK: Frost Rune → Single Enemy → Ice DMG → Glowing blue rune flies → shatters on target
- Skill: Blizzard → All Enemies → Ice DMG, 25% chance ❄️Freeze (1 turn) → Snowstorm engulfs enemies — frost spreads across ground
- Ultimate: Eternal Winter → 💫125 Energy → All Enemies → Heavy Ice DMG, 40% chance ❄️Freeze (2 turns) → Ground freezes outward — enemies encased in ice blocks
- Passive: Frozen Knowledge — ❄️Freeze duration +1 turn → ice crystals linger longer on frozen targets
- Technique: Pre-Chill → First Skill used has +10% Freeze Chance

🛡️ PRESERVATION — Tanks & Defenders

🧊 Frostine · 🛡️Preservation · ❄️Ice

- Ice warden. Creates impenetrable defenses that shield her party from harm.
- Basic ATK: Frost Strike → Single Enemy → Ice DMG, 15% chance ❄️Freeze (1 turn) → Frostine swings icy staff — freezing wave hits target
- Skill: Ice Barrier → All Allies → Shield (2 turns) → Frost barrier rises around party — pale blue outline on all allies
- Ultimate: Absolute Zero → 💫110 Energy → All Enemies → Ice DMG + 45% chance ❄️Freeze (1 turn) → Cold blast radiates outward — mist settles; enemies freeze in place
- Passive: Iceborn — Ice DMG taken -20% → faint icy aura around her when hit by Ice
- Technique: Wall → Start battle with small shield for all allies (1 turn)

🏰 Thor · 🛡️Preservation · ⚡Lightning

- Living citadel. His shields punish attackers with electric retaliation.
- Basic ATK: Shock Bash → Single Enemy → Lightning DMG → Thor steps forward, hammer crackling with electricity — strikes → thunderclap
- Skill: Thunder Ward → Single Ally → Shield (2 turns); attackers take ⚡Lightning DMG when hitting this ally → Yellow electric outline on ally; small sparks jump when enemy strikes them
- Ultimate: Lightning Barrier → 💫110 Energy → All Allies → Shield (2 turns) + Retaliation Lightning DMG → Glowing yellow shields on everyone — arcs of lightning connect allies to attackers
- Passive: Static Defense — Shielded allies take -15% Lightning DMG → faint hum/electric aura on shielded targets
- Technique: Grounding → Start battle with self shield

☁️ Nimbus · 🛡️Preservation · 🌪️Wind

- Gentle gale that turns aside blows. Light shields that fade but protect consistently.
- Basic ATK: Gust Push → Single Enemy → Wind DMG → Strong gust pushes enemy back slightly
- Skill: Wind Wall → All Allies → Shield + Ranged DMG -30% (2 turns) → Translucent swirling wall of air rises in front of party
- Ultimate: Sky Sanctuary → 💫115 Energy → All Allies → Shield + Minor Heal → Soft cloud-like glow settles on party — gentle swirl of wind particles
- Passive: Breeze — Shielded allies recover 5% HP at start of each turn → tiny green healing particles rise each turn
- Technique: Soft Landing — First turn DMG taken -20%

💚 ABUNDANCE — Healers

🌸 Flora · 💚Abundance · 🌍Nature

- Warm-hearted caretaker. Life blooms wherever she stands. Reliable steady healing.
- Basic ATK: Vine Whip → Single Enemy → Nature DMG → Vines shoot from ground to strike enemy
- Skill: Nurturing Light → Single Ally → Heal → Soft green light descends on ally — heart-shaped particles float upward
- Ultimate: Forest's Blessing → 💫100 Energy → All Allies → Heal + HoT 12%/turn (2 turns) → Tree roots/grass burst from ground beneath party — golden leaves fall gently
- Passive: Life Bloom — Healing +20%; overhealing converts to temporary shield → extra green glow when overheal occurs
- Technique: Seedling — Start battle, all allies +8% HP

❄️ Elsa · 💚Abundance · ❄️Ice

- Winter healer. Her ice preserves and purifies as much as it cures.
- Basic ATK: Ice Petal → Single Enemy → Ice DMG → Sharp ice crystal flies at enemy → shatters
- Skill: Frozen Dew → Single Ally → Heal + Remove 1 Debuff → Icy dew drop lands on ally — frost spreads gently → debuff dissolves in sparkles
- Ultimate: Glacial Garden → 💫100 Energy → All Allies → Heal + Debuff Cleanse + Ice RES +25% (2 turns) → Beautiful frozen flowers bloom around party — sparkling mist
- Passive: Purifying Ice — Healed allies immune to ❄️Freeze for 1 turn after healing → faint blue shimmer on healed ally
- Technique: Winter Shield — Start battle, ally with lowest HP gets small shield

💧 Rian · 💚Abundance · ⚡Lightning

- Energetic spring guardian. Heals and restores energy so allies act more often.
- Basic ATK: Spark Splash → Single Enemy → Lightning DMG → Water orb crackling with electricity hits enemy — pops into sparks
- Skill: Energizing Flow → Single Ally → Heal + Energy Regen +15/turn (2 turns) → Glowing blue water splashes on ally — small electric orbs circle them
- Ultimate: Life Surge → 💫95 Energy → All Allies → Heal + Restore +20 Energy to everyone → Geyser bursts beneath party — lightning arcs upward
- Passive: Resonance — Critical heals also heal a nearby ally for 30% value → healing particles jump to second ally
- Technique: Springwater — Start battle, self +30 Energy

🤝 HARMONY — Buffers & Enablers

⭐ Astra · 🤝Harmony · ✨Light

- Radiant beacon. Her presence brings out the best in everyone. Universal stat buffer.
- Basic ATK: Prism Ray → Single Enemy → Light DMG → Rainbow beam cuts through enemy
- Skill: Inspiring Light → Single Ally → ATK +18% (2 turns) → Golden starlight descends on ally — glowing line connects Astra to ally then fades
- Ultimate: Starry Hymn → 💫120 Energy → All Allies → ATK/DEF/SPD +12% (2 turns) → Constellation pattern glows above party — warm golden glow on everyone
- Passive: Beacon — Allies gain +5 Energy/turn while Astra is on field → faint star icon pulses near ally portraits
- Technique: Blessing — Start battle, all allies ATK +8% for 2 turns

🎵 Lyra · 🤝Harmony · 🌍Earth

- Bard who sings with the mountains. Fortifies defense and resistance against harm.
- Basic ATK: Stone Hum → Single Enemy → Earth DMG → Resonant note — sound wave pushes enemy

- Skill: Mountain Anthem → All Allies → DEF +20% + Effect RES +15% (2 turns) → Deep resonant tone — stone runes appear at allies' feet
- Ultimate: World Resonance → 💫120 Energy → All Allies → ATK +15% DEF +25% (2 turns) → Ground thrums — golden circle expands outward from Lyra
- Passive: Long Echo — Buffs last +1 turn → runes glow faintly when expiring soon
- Technique: Prelude — Start battle, all allies DEF +10% for 2 turns

💃 Maya · 🤝Harmony · 🌪️Wind

- Dancer of the breezes. She quickens every ally's pace — turns come faster.
- Basic ATK: Rhythm Step → Single Enemy → Wind DMG → Maya spins — gust of wind strikes enemy
- Skill: Quickening Tune → All Allies → SPD +20% (2 turns) → Light-footed melody — allies trail soft wind ribbons
- Ultimate: Wind's Whisper → 💫110 Energy → All Allies → Action Forward 20% + ATK +15% (2 turns) → Dance finishes — burst of wind pushes all allies forward in turn order bar
- Passive: Tempo — Allies act 5% faster while Maya is on field; SPD buffs last +1 turn on her turns → faint wind icon spins near turn order indicators
- Technique: Opening Waltz — Start battle, all allies SPD +12% for 1 turn

💀 NIHILITY — Debuffers & DoT Specialists

🦇 Miles · 💀Nihility · 🕷️Shadow

- Quiet shadow operative. Weakens enemies so they crumble before your attackers.
- Basic ATK: Dark Cut → Single Enemy → Shadow DMG → Miles fades forward, slashes with shadow blade, retreats instantly
- Skill: Enfeeble → Single Enemy → ATK -22% DEF -15% (3 turns) → Dark mist wraps around enemy; their colors dim
- Ultimate: Curse of Shadows → 💫115 Energy → All Enemies → Shadow DMG + 🤢Poison 8%/turn (3 turns) → Shadow wave spreads outward; green-purple mist settles on all foes
- Passive: Lingering Dread — All debuffs last +1 turn → debuff icons glow faintly longer before expiring
- Technique: Pre-Curse → First enemy hit takes Poison for 1 turn

🦗 Cinder · 💀Nihility · 🔥Fire

- Pyric witch who withers foes. Her fires burn armor and vitality alike.
- Basic ATK: Smolder → Single Enemy → Fire DMG → Small smoldering ember lands → smoke rises
- Skill: Blight → Single Enemy → DEF -25% + Fire RES -20% (3 turns) → Dark orange flame clings to enemy armor, eating away
- Ultimate: Cinder Plague → 💫115 Energy → All Enemies → Fire DMG + 🔥Burn 10%/turn + RES Down (2 turns) → Burning ash rains over all enemies; fire clings and spreads

- Passive: Ashen Return — Enemies dying while 🔥Burned restore 💫15 Energy → small flame orb floats back to Cinder
- Technique: Kindling → Start battle, Skill has +1 charge

🌀 Kaelen · 💀Nihility · 💧Water

- Deep-sea caller. Drags foes down, slowing and drowning them in weakness.
- Basic ATK: Water Prison → Single Enemy → Water DMG → Spinning water orb slams into target
- Skill: Drown → Single Enemy → SPD -25% ATK -18% (3 turns) → Water swirls around enemy's feet, rising slowly
- Ultimate: Abyss Tides → 💫110 Energy → All Enemies → Water DMG + SPD -20% + 20% ❄️Freeze chance (1 turn) → Massive wave crashes over all enemies; recedes slowly
- Passive: Deep Pressure — Debuffed enemies take +15% DMG from all sources → faint water ripple over affected foe when hit
- Technique: Undertow → First turn, all enemies SPD -10%

🪞 REMEMBRANCE — Echo & Memory Masters

🪞 Elowen · 🪞Remembrance · ✨Light

- Mirror weaver. Summons perfect echoes of herself to repeat actions.
- Basic ATK: Reflection → Single Enemy → Light DMG → Elowen strikes simultaneously with her translucent mirror copy
- Skill: Summon Echo → Self → Echo appears behind Elowen, copies her Basic ATK each turn (3 turns) → Silvery duplicate forms, 50% opacity; fades gradually — last turn = very faint
- Ultimate: Dual Recall → 💫120 Energy → Self → Echo copies SKILL instead of Basic ATK (2 turns) → Brighter duplicate; silvery ripples on ground
- Passive: Mirroring — Echo deals 45% of original DMG; cannot use Ultimates → echo's attacks are fainter, smaller numbers
- Technique: Quick Echo → Start battle, Echo active for 1 turn

📜 Soren · 🪞Remembrance · 🌪️Wind

- Keeper of history. Stores ally actions to replay them at will.
- Basic ATK: Recollection → Single Enemy → Wind DMG → Scroll opens, wind gust flies out
- Skill: Archive → Single Ally → Records their next Basic ATK; stores for 3 turns → Glowing scroll icon appears above ally
- Ultimate: Reenact → 💫125 Energy → Any Enemy → Replay stored attack at 70% power → Scroll unfurls, exact visual replay of ally's attack — fainter, smaller numbers
- Passive: Preserve — Stored actions expire 1 turn later → scroll icon pulses softly when expiring soon
- Technique: Memory Bank — Start battle, store 1 random ally's Basic ATK

🕰️ Tempus · 🪞Remembrance · ⚡Lightning

- Chronomancer. Rewinds small moments — crucial mistakes undone.
- Basic ATK: Time Strike → Single Enemy → Lightning DMG → Slight time distortion — hit lags slightly then registers
- Skill: Rewind → Single Ally → Reset their Skill cooldown; +15 Energy → Clock icon spins backward above ally
- Ultimate: Second Chance → 💫130 Energy → All Allies → Remove 1 debuff each + heal 15% HP → Clock spins rapidly; golden time-wave washes over party from past to present
- Passive: Moment — 1 use per battle max; Skill cannot be used twice in same turn → clock icon grays out on cooldown
- Technique: Saved Moment — Start battle, 1 free Rewind charge

🎉 ELATION — Burst, Luck & Energy Catalysts

🎉 Lumi · 🎉Elation · ✨Light

- Joyful soul. Radiates energy — the party unleashes ultimates faster.
- Basic ATK: Sparkle → Single Enemy → Light DMG → Bright star-shaped spark flies, pops on impact
- Skill: Energize → All Allies → +25 Energy each (2 turns, +8 Energy/turn) → Cheerful burst of confetti-like light particles on each ally
- Ultimate: Celebration → 💫100 Energy → All Allies → ATK +12% + +40 Energy → Golden fireworks burst above party; everyone glows bright briefly
- Passive: Shared Joy — Allies gain +12% Energy from all sources while Lumi is active → tiny star orbs float around portraits
- Technique: Pre-Party — Start battle, all allies +15 Energy

🎆 Ignacia · 🎉Elation · 🔥Fire

- Firework dancer. Builds up to massive, spectacular burst damage.
- Basic ATK: Spark → Single Enemy → Fire DMG → Small colorful firework shot → bursts softly
- Skill: Build-Up → Self → ATK +15% + Crit Rate +10% (2 turns) → Ignacia spins, colorful sparks trail her movements
- Ultimate: Grand Finale → 💫115 Energy → Single Enemy → Massive Fire DMG; +50% DMG if ATK/Crit buffs active → Giant multi-colored firework rocket → massive explosion — colorful fragments everywhere
- Passive: Crescendo — Each consecutive hit = +5% DMG (max +25%); resets on miss → faint firework trail follows each successful hit
- Technique: Fuse — First turn, Skill automatically fully charged

🎊 Chance · 🎉Elation · 🌍Earth

- Lucky charm. Unexpected things happen — extra hits, critical moments, lucky escapes.

- Basic ATK: Lucky Strike → Single Enemy → Physical DMG; 15% chance for second hit → Coin flip icon; if proc, second quick strike
- Skill: Good Fortune → Single Ally → 20% chance to evade next attack + 15% Crit Rate (2 turns) → Four-leaf clover icon above ally; glows green
- Ultimate: Jackpot → 💫110 Energy → Random Effect: 3× damage hit / Heal all Allies / +50 Energy for all → Gold coin spins → lands on effect — confetti explosion
- Passive: Serendipity — 8% chance to completely negate any incoming DMG → lucky star spark appears briefly when procced
- Technique: Lucky Start — First attack = guaranteed Crit

👾 PART 2 — ENEMIES & BOSSES

Format per enemy: Emoji / Name / Element / Type → HP / Toughness / Skills & Effects / Visuals & Animations

🟢 Common Enemies

👻 Wisp · 🕷️Shadow · Common

- HP: Low | Toughness: Low
- Attack: Shadow Touch → Single, minor Shadow DMG
- Behavior: Weak, groups of 3–4
- Visual: Floating shadow orb; faint purple glow; fades gently on death

🦉 Hoot · 🌪️Wind · Common

- HP: Low | Toughness: Low
- Attack: Gust → Single, minor Wind DMG; slight SPD down
- Behavior: Fast, acts early in turn order
- Visual: Small owl silhouette; leaves trail; flies away on defeat

🪵 Bark · 🌍Earth · Common

- HP: Medium | Toughness: Low
- Attack: Ram → Single, minor Physical DMG
- Behavior: Slow, high HP
- Visual: Walking log; bark texture; crumbles into wood chips when defeated

🔥 Spark · 🔥Fire · Common

- HP: Low | Toughness: Low
- Attack: Singe → Single, minor Fire DMG; 15% 🔥Burn 1 turn

- Behavior: Explodes on death — adjacent ally takes minor Fire DMG
- Visual: Floating flame; flickers; dwindles to ash when defeated

❄️ Frostlet · ❄️Ice · Common

- HP: Low | Toughness: Medium
- Attack: Nip → Single, minor Ice DMG; 10% ❄️Freeze 1 turn
- Behavior: Often pairs with others
- Visual: Tiny ice crystal; glints; melts into small puddle on defeat

🟡 Elite Enemies

🐺 Shadowhound · 🕷️Shadow · Elite

- HP: High | Toughness: Medium
- Bite: Single, medium Shadow DMG — attacks twice per turn
- Howl: All enemies ATK +10% (2 turns)
- Visual: Dark wolf form; glowing eyes; shadow aura

🗿 Sentry · 🌍Earth · Elite

- HP: Very High | Toughness: High
- Slam: Single, medium Physical DMG
- Guard: Self DEF +30%; taunts — allies forced to target Sentry for 1 turn
- Visual: Stone giant; heavy cracks; stone outline when guarding

🌊 Tidecaller · 💧Water · Elite

- HP: Medium | Toughness: Medium
- Waterbolt: Single, medium Water DMG
- Heal: Restore 20% HP to all nearby enemies
- Visual: Blue flowing figure; water ripples around it

🌩️ Stormcaller · ⚡Lightning · Elite

- HP: Medium | Toughness: Low
- Lightning: Single, medium Lightning DMG; jumps to 1 extra target
- Thunderclap: All enemies, minor Lightning DMG
- Visual: Crackling figure; sparks constantly; lightning arcs between it and the ground

⚠️ Mini-Bosses

🧊 Icewurm · ❄️Ice · Mini-Boss

- HP: High | Toughness: High
- Burrow: Disappears for 1 turn → Emerge from target position → heavy Ice DMG + ❄️Freeze 1 turn
- Tailswipe: All adjacent, medium Physical DMG
- Phase: HP <50% = Faster burrow cooldown
- Visual: Long ice serpent; translucent blue-white; frost patterns on body

🐍 Serpentis · 💧Water · Mini-Boss

- HP: High | Toughness: Medium
- Bite: Single, medium Water DMG + 🤢Poison 6%/turn (2 turns)
- Constrict: Single, Physical DMG + SPD -20% (2 turns)
- Visual: Water serpent; swirling mist; bubbles rise around it

⚙️ Golem · 🌍Earth · Mini-Boss

- HP: Very High | Toughness: Very High
- Fist: Single, heavy Physical DMG
- Laser: Beam across row, medium Earth DMG; charge up 1 turn — glowing eye = warning
- Immune: All debuffs
- Visual: Stone construct; glowing core; gears turning inside

🔴 Bosses

🐉 Ignidra · 🔥Fire · Boss

- HP: Massive | Toughness: Very High
Phase 1:
- Firebreath: Cone, heavy Fire DMG + 🔥Burn
- Tailswipe: All behind, medium Physical DMG
- Roar: Self ATK +15% (2 turns)
Phase 2 (<50% HP):
- Scorched Earth: Field active — all Fire DMG +20%; party takes minor Fire DMG each turn
- Inferno: All enemies, massive Fire DMG — charge warning 1 turn
- Visual: Dragon; red-orange scales; lava veins; floor glows orange in Phase 2; embers drift constantly

🌊 Hydriss · 💧Water · Boss

- HP: Massive | Toughness: High
Phase 1:
- Tidal Wave: All, medium Water DMG
- Heal: Restore 12% HP; every 3rd turn
- Bubble: Single ally trapped — cannot act 1 turn; bubble can be broken by attacking

Phase 2 (<50% HP):
- Whirlpool: Field active — All SPD -15%; Water DMG +25%
- Abyss Pull: All, heavy Water DMG + Action Delay
- Visual: Ocean queen; water-form; crown of coral; water rises in arena Phase 2

⛈️ Tempest · ⚡Lightning · Boss

- HP: Massive | Toughness: Medium
Phase 1:
- Thunderbolt: Single, massive Lightning DMG
- Chain: Hits 3 random targets, medium Lightning DMG each
- Stormcloud: Summons ⛈️ cloud — next turn, AoE lightning
Phase 2 (<50% HP):
- Lightning Storm: Field active — random lightning hits 2 allies each turn
- Judgment: Target ally; massive Lightning DMG — warning beam locks on 1 turn prior
- Visual: Living storm; crackling energy; rain falls in arena; lightning strikes arena edges

🕰️ Chronos · ✨/🕷️Mixed · Boss

- HP: Massive | Toughness: High
Phase 1:
- Hourglass: Single ally — SPD -30% for 2 turns
- Sandblast: All, medium Shadow/Light DMG mixed
- Rewind: Restores 15% HP — used every 4 turns
Phase 2 (<50% HP):
- Time Stop: Freezes all allies for 1 turn; Chronos acts twice
- Accelerate: Chronos SPD +40% for rest of fight
- Visual: Floating figure; clock face; hourglass background; arena dims in Phase 2 — clock hands spin rapidly

🎭 Masquerade · 🎉/💀Mixed · Boss

- HP: Massive | Toughness: Medium
Phase 1:
- Jest: Random buff to self OR random debuff to party each turn
- Mockery: Copies last skill used by party ally — weaker version
- Prank: Random ally Confused 1 turn
Phase 2 (<50% HP):
- Double Act: Two random effects each turn
- Grand Performance: All, medium mixed DMG + Confuse chance
- Visual: Elegant masked figure; shifting colors; reflections; arena changes hue each turn

📐 Implementation Notes

- Energy Gain: Basic ATK = +20, Skill = +30, Take Damage = +10–15, Ult Costs = 90–140
- Element Colors: 🔥Orange · ❄️Cyan · ⚡Yellow/Violet · 🌪️Teal · 🌍Gold · 💧Blue · ✨White/Gold · 🕷️Purple
- Animations: Melee = card slides forward → strikes → returns. Ranged = projectile from caster → impact flash. AoE = burst outward from caster. Buff = glow + connecting line. Heal = green particles rising. Shield = glowing outline forms around ally; shatters when broken.
- Expiration: 2+ turns = solid icon. 1 turn = faint pulse. End of turn = fade out completely.
- Field Rule: Only 1 field active at a time; deploying new one replaces previous one
- Toughness Break: Delays enemy action + target takes +40% DMG for 2 turns

Write this up cleanly organized into clear sections with consistent formatting, ready to implement into code or design documents.

💡 Pro Tip for Next Time

If Claude still cuts off, just say "continue" — it will pick up exactly where it left off! Or split the prompt into two parts: first characters, then enemies. 😊

Everything's complete now — enjoy building your game! 🎮✨

🛡️ ENEMY SHIELDS & BREAK MECHANICS — Full System

📌 How Enemy Shields Work

- Enemies can have two types of protection:
- HP Shield 🛡️ — absorbs damage before their actual HP takes any loss
- Toughness Bar ⛓️ — the "stagger/armor" bar above their HP; when broken, they become vulnerable
- Shields can be Elemental — some enemies have Elemental Shields that take extra damage from their counter element

⚡ Breaking Enemy Shields — What Happens

🔹 While Shield Is Active

- Enemy has a glowing outline matching the shield's element color
- Damage numbers hit the shield first → show as silver/silver-white numbers with 🛡️ icon
- HP bar shows a second bar above it — shield value, same or different color
- Enemy takes reduced effect from debuffs — debuff icons are slightly faded

🔹 Shield Broken — The Moment It Breaks

✨ Visual Cue:

- Shield outline shatters into fragments that fly outward then fade away
- Bright element-matching flash pulses once around the enemy
- "BROKEN" text pops up — large, bold, bright white with element-colored glow
- Enemy flinches/staggers — animation pauses for 0.5 sec, then returns

⚙️ Gameplay Effects:

- Enemy takes +30–50% increased damage for 2 turns
- All debuffs now apply at full strength
- Toughness bar (if separate) becomes easier to damage for 2 turns
- If it's an Elemental Shield, the enemy also takes extra damage from the counter element for the remainder of the fight

🔹 How to Show It's Recovering

- 1 turn before shield returns: Faint, dim outline starts reappearing — pulses slowly
- Fully restored: Outline brightens → solid glow returns → "RESTORED" small text appears briefly

- Enemy regains damage reduction

⛓️ TOUGHNESS BREAK SYSTEM — Added Too

State Visual Gameplay Effect
Toughness Full Solid bar above HP; enemy stands firm Enemy resists stagger; debuffs last 1 fewer turn
Toughness Low (1–2 hits left) Bar flashes faintly; enemy looks "shaky" Debuffs apply normally now
💥 BROKEN! Bar shatters → disappears; enemy staggers, kneels or hunches over; "BREAK" pops up in bold orange/red text Enemy action delayed by 30–50% in turn order; takes +40% DMG for 2 turns; all debuffs apply fully + last +1 turn
Recovering Bar refills gradually; enemy returns to normal stance Back to full protection

🎨 Elemental Shield Colors & Weaknesses

Shield Type Color Weak To Break Animation
🔥 Fire Bright Orange/Red 💧 Water Steam burst outward when broken
❄️ Ice Pale Blue/Cyan 🔥 Fire Ice shatters into crystals
⚡ Lightning Yellow/Violet 🌪️ Wind Electric explosion, sparks fly
🌪️ Wind Soft Green ⚡ Lightning Gust of wind disperses
🌍 Earth Sandy Gold/Brown ❄️Ice Rocks crumble to dust
💧 Water Deep Blue ⚡ Lightning Water splashes outward
✨ Light White/Gold 🕷️ Shadow Bright flash → fades to dim
🕷️ Shadow Deep Purple ✨ Light Dark mist dissolves/rises

📋 Implementation Notes — Add This to Your Prompt

Enemy Shield System:

- Shields appear as a glowing element-colored outline + secondary bar above enemy HP
- Damage to shield = silver numbers with 🛡️ icon
- Break Moment: Outline shatters → element burst → "BROKEN" text → enemy staggers briefly
- Broken State: +30–500% DMG taken; full debuff susceptibility; lasts 2 turns
- Recovery: Faint pulsing outline 1 turn before fully restored; "RESTORED" indicator
- Elemental Shields take double damage from counter element and break faster when hit by that element
